"Advantages of writing sermons" was one of the questions discussed in a ministers' meeting at Martinsville, Ill., last week. We do not know what features of a written sermon were presented as being advantageous, but we could have suggested one, viz, the soothing effect they usually have upon congregations, especially in warm weather, when most of the hearers go to sleep during their delivery.

A Pitiful Sight.
What sadder sight can be imagined than that of a noble man, whom the world can ill-afford to spare, stricken down in the prime of a useful life by consumption. Thousands are yearly filling consumptive graves who might be saved by the timely use of Dr. Pierce's "Golden Medical Discovery," which is a positive cure for consumption in its early stages. It is the best alternative and pectoral in the world. All druggists.

It is said that nine years hence when the debt shall mature, the subsidized Pacific railroads will owe the government \$140,000,000. The probabilities are this debt will never be paid, nor will the railroads ever be sold to liquidate the obligation. There is an investigation, by authority of congress, now going on looking into the present condition and past management of these roads. The report of that committee will be a voluminous document, and will, no doubt, furnish much interesting reading matter to the student of gigantic swindles.

A DISPATCH from Clinton to the Globe-Democrat says Aunt Mason Eshels, an ancient negress, dropped dead in her door yard while feeding her chickens, and that she was probably the oldest person in the state, claiming to be 106 years old. Probably the Globe correspondent, has never heard of our Uncle Martin Ewing, who lives near Dalton, in this county, at the advanced age of 125 years. There is no family record to prove his age, but strong circumstantial evidence exists in abundance that establishes it beyond doubt.

Man's inhumanity to woman makes countless thousands mourn, would be an applicable rendering of Pope's line, in view of the indignities she has suffered and pains undergone at the hands of unskillful physicians and quacks. Naturally modest she suffers on until forced to consult a physician regarding some female difficulty which she well knows is sapping her strength. All this embarrassment can be avoided and a cure effected by purchasing Dr. Pierce's "Favorite Prescription" of your druggist, and taking as directed. Price reduced to one dollar.

Minnie Bond, colored, buried at Fall's Church, Va., recently, had documents to prove that she was 128 years old. She remembered General Washington.

They are building a squirrel cage for men in the Oswego prison. The cell moves slowly round continually, carrying the prisoner with it. The rotary motion is to prevent prisoners from breaking through the walls. They don't remain in one spot long enough for a whole to be made.

At a recent trial of bloodhounds at the convict camp at Friar's Point, Miss., a short time ago, a negro under 10 years' sentence was released and told that he could have his liberty if he escaped the dogs. The convict had three hours' start, but the dogs ran him down before he had gone twenty miles.

A tired-looking chap, who was arraigned before Justice Duffy, in New York, the other day, claimed to be a carpenter, and the justice, doubting his story, offered to let him go if he named the tools used in the trade. This the prisoner did, and was promptly discharged. This shows the value of a good memory.

Mrs. Phoebe Chesley, Peterson, Clay Co., Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness, and am able to do all my own house work. I owe my thanks to Electric Bitters for having renewed my youth, and removed completely all disease and pain." Wm. Langitt, G. W. McCollum and others, of near this place, went to Triplett last week to work on the new railroad.
Will our sister over at Triplett, that breeds improved fowls and quarrels through the newspaper, tell us who that fellow is—the fellow with a weak spot in the tail of his "coat of mail." If man's physical anatomy was a "coat of mail" attachment, we fail to find it.

Fernandina, Nasau Co., Fla., March 29, 1880.—"I have used Dr. Simmons' Liver Regulator and always found it to do what is claimed for it. The last bottle and two packages did me no good and were worse than nothing. I see it is not put up by J. H. Zeilin & Co., and not genuine, and a waste of money to buy it.
